Ritzy Retreat

Create spa-inspired surrounds with luxurious selections that soothe and spoil.

SWEET SOLITUDE

When Michelle Castagna of Muse Design Studio in Boca Raton was commissioned to transform a master bath into a calm haven with no "visual noise," she knew exactly what to do. A soft, neutral wallpaper with dolomite countertops and gray-veined, statuary marble floors were mixed in to create a light, tone-on-tone effect, while handmade glass tiles from Lunada Bay Tile pull the focus toward custom draperies and the verdant outdoors. Crystal chandeliers and wall sconces add a hint of femininity to the space; musedesignstudio.com
