Kitchen Couture

Dress up the heart of the home with unexpected luxuries like rock crystal pendant lights and animal-inspired hardware.

CALM CRAFT

For this Deerfield Beach kitchen, Michelle Castagna of Muse Design Studio incorporated soothing tones of cream, white and beige to create a serene environment her client could cook in and "calm her mind." Custom cabinetry, chrome hardware and a linear tile backsplash were kept minimalistic to let art and textiles take center stage. Orient Express rope-weave counter stools and Lolo faux fur throws serve up extra texture and coziness. musedesignstudio.com

SURF'S UP

When Waterview Kitchens' Jim and Patty Anderson were tasked with dreaming up a kitchen for their clients, the proprietors of Blueline Surf & Paddle Co., they chose the ocean's cool clean tint as their muse. The kitchen's oversized island, which also serves as a gathering spot for the couple's children and golden retriever, was painted denim blue and crowned with a Calacatta marble countertop. Sand-colored oak floors, cloud-white cabinetry and, the pièce de résistance, a wall-mounted surfboard, work collectively to reflect the family's "life-is-a-beach" mantra; waterviewkitchens.com

TILE TWIN

Skip tiles for a tile-patterned alternative, like the Hammam wallpaper from Osborne & Little, which cleverly recreates the square glass tiles found in Middle Eastern bathhouses; price upon request; available at Osborne & Little in Dania Beach; osborneandlittle.com
